

# MetroCargo Terminal COO Review - Premium Dispatch Performance

# KPI Summary

| KPI                               | Last 14 Days |
|-----------------------------------|--------------|
| Premium same-day uplift           | 93.4%        |
| Target                            | 98.0%        |
| Days missed                       | 7 of 14      |
| Avg delayed premium shipments/day | 412          |
| Avg penalty/day (INR)             | 74,160       |

# Operational Notices

Most failures occur in the evening dispatch bank.

Delays disproportionately affect premium express customers.

Team feedback mentions congestion near screening and build-up areas.

# Network strategy

Potential expansion into 2-tier cities

Long-term automation roadmap

Lease renegotiation discussions

Non-operational capex priorities

## Airline bank timings

| Flight Bank | Dock Close |
|-------------|------------|
| Bank A      | 19:15      |
| Bank B      | 19:45      |
| Bank C      | 20:00      |
| Bank D      | 21:10      |

Premium SLA is measured against Bank C 20:00 dock close, not later overnight flights.
