

section	metric	value	unit	notes
Executive Summary	Fan satisfaction current	61	score out of 100	Down from 78 last season
Executive Summary	Fan satisfaction prior	78	score out of 100	Prior season baseline
Executive Summary	Season ticket renewal change	-15	percent	Versus same point last season
Executive Summary	Top complaint category	Concessions wait time	text	Most cited in arena complaints
Executive Summary	Working management hypothesis	Checkout speed	text	Prior reviews emphasized payment and cashier responsiveness

section	complaint theme	observation	notes
Complaint Themes	Missed live action	Fans report missing live game action while waiting in line	Repeated in post game surveys
Complaint Themes	Line not moving	Most common phrases include too slow missed the quarter and line not moving	Complaint wording is not always process specific
Complaint Themes	Payment complaints	Several comments mention payment taking too long	Anecdotal and not sufficient for bottleneck diagnosis
Complaint Themes	Food delay complaints	Loaded items and combo meals appear disproportionately in escalations	Points toward downstream process friction

section	metric	value	unit	notes
Full Game KPI Snapshot	Average full game wait time	11.4	minutes	Blends non peak and peak periods
Full Game KPI Snapshot	Average full game checkout time	24	seconds per transaction	All channels included
Full Game KPI Snapshot	Average full game throughput	920	transactions per hour	All service periods blended
Full Game KPI Snapshot	Average late game queue length	42	fans	Much lower than stable peak window
Full Game KPI Snapshot	Use for bottleneck analysis	No	flag	These are blended summary metrics only

section	support type	units or status	notes
Rivalry Night Recap	Express runners	4	Temporary support used on one rivalry game
Rivalry Night Recap	Pop up cashier pods	2	Portable checkout tablets used on one game only
Rivalry Night Recap	Overflow beverage cart	1	Concourse support not in baseline main bowl system
Rivalry Night Recap	Observed complaint trend	Lower	Temporary support reduced visible complaints directionally
Rivalry Night Recap	Baseline applicability	Do not annualize	One game intervention only

section	channel	service characteristic	notes
Premium Seating Notes	Premium club	Lower menu variety and separate staffing	Faster service not comparable to main bowl
Premium Seating Notes	Suite pantry	Dedicated support model	Outside permanent main bowl concession system
Premium Seating Notes	Main bowl baseline	Separate from premium channels	Do not include in current state bottleneck analysis

section	activation type	impact	notes
Sponsor Activation Summary	Sponsor soda giveaway	Higher engagement in selected zones	Operated outside standard concession footprint
Sponsor Activation Summary	Branded snack cart	Incremental trial volume	Event specific not baseline
Sponsor Activation Summary	Analytical use	Exclude from true system capacity	Not normal operations

section	temp measure	status	notes
Temporary Support Measures Used	Rivalry night support	Event specific	Should not be annualized into baseline throughput
Temporary Support Measures Used	Mobile pickup pilot	One game test	Outside standard operating model
Temporary Support Measures Used	Promo support channels	Temporary	Not part of permanent main bowl system
Temporary Support Measures Used	Analytical implication	Exclude	Not valid for true current state capacity

section	source	observation	notes
Stand Manager Escalations	Stand managers	Loaded items and combo customization delay line completion	Repeated operating comment
Stand Manager Escalations	Stand managers	Payment software improvement reduced card lag but did not materially change total wait time	Important buried signal
Stand Manager Escalations	Stand managers	Standard items move faster when separated from customization work	Supports process redesign hypothesis

section	method rule	requirement	notes
Appendix Method Notes	Time window	Use stable 36 minute peak window only	Do not use full game blended averages
Appendix Method Notes	System boundary	Use only permanent main bowl stands	Exclude premium and temporary channels
Appendix Method Notes	Exclusions	Exclude event specific support pilot channels and promotional kiosks	Required for true capacity calculation
Appendix Method Notes	Decision basis	Identify true bottleneck before recommending capex	Owner requested proof
